

Important Notice

Training Could Save A Life!

Not only is training the law and will help save lives, proper training reduces accidents, decreases work stoppages, reduces equipment damage and costs, minimizes scheduling disruptions, and reduces lost production and material handling time. Operator training is a safe, smart investment in your business.

**BC's Leading Authority
on Lift Trucks**

BC LAW Mandates ALL Forklift Drivers MUST Have Operator Training

The LAW

WorkSafe BC Sec's 3.22 & 16.7 (J) states "The employer is required to provide every employee, who is required to operate a Lift Truck as part of his/her employment, with adequate training in the safe operation of equipment."

In Addition:

"All employers must train their operators in accordance with the standards outlined by CSA B335.94, 'Industrial Lift Truck Operator training.'"
